

COMPUTRAC® | JEROME®
by Arizona Instrument LLC

March 23, 2011

Thank You

Thank you for visiting Arizona Instrument's booth at PITTCON 2011 in Atlanta, GA. We enjoyed the opportunity to meet with you at the show to discuss your moisture analysis needs. As you may already know, our Computrac® Moisture | Solids Analyzer and Jerome® Toxic Gas Analyzer performance, ease of use and reliability are unmatched in the industry. Our commitment to your needs remain our highest priority. For more information, please visit us online at www.azic.com.

We sincerely appreciate your interest in our products, and as the Director of Sales, I want to personally ensure you that a member of my sales team will be in touch to discuss your company needs further. In the meantime, you will find information attached regarding our company and our moisture and toxic gas analyzers.

We appreciate your interest and look forward to serving you in the future.

Sincerely,

Rick Ervin, Director of Sales
