Computrac® Qualification Protocol IQ/OQ/PQ

MAX® Series and Vapor Pro® Series

Arizona Instrument offers a complete qualification protocol package and service to assist in the process of validating and qualifying MAX® and Vapor Pro® series moisture analyzers to industry requirements.

The qualification protocol package includes bound, printed documents, as well as copies in Adobe Acrobat PDF format on CD. The step-by-step, user-friendly package quickly guides the user through installation qualification (IQ), operation qualification (OQ), and performance qualification (PQ).

Arizona Instrument's trained field service engineers (FSE) are available to quickly bring instruments into service at your site. FSE's can also calibrate and repair other MAX® and Vapor Pro® instruments at your facility during the same visit.

Contact:

Contact Arizona Instrument [Customer Service](#) or [Computrac Sales](#) at 800-528-7411 or 602-470-1414, or e-mail support@azic.com for additional information.

Terms and Conditions:

An advance deposit, credit card or purchase order is required in order to schedule on-site servicing. Payment for the visit, travel, and expenses is due upon completion of the work at the site, or when invoiced.
