

Arizona Instrument is going to Interpex! Meet your new sales representative!

I have worked in a variety of positions with Arizona Instrument previously, including Technician, Lab Manager, Field Service Engineer and Sales. I took a short break from Arizona Instrument to pursue other opportunities, but after realizing how much I missed working here in technical sales, I couldn't help but come back here.

I am excited about being here and working with you. I hope I have a chance to meet you in person at Interpex!
